Query	DB	Op.	Plur.	Thes.	Date
protein near transduction near domain	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
(protein near transduction near domain) same (vector or plasmid)	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
(protein near transduction near domain same (vector or plasmid)) same fusion protein	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
(protein near transduction near domain same (vector or plasmid) same fusion protein) and (vector or plasmid) same binding near domain	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
(protein near transduction near domain same (vector or plasmid) same fusion protein and (vector or plasmid) same binding near domain) and nuclear near localization	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
(protein near transduction near domain same (vector or plasmid) same fusion protein and (vector or plasmid) same binding near domain and nuclear near localization) and delivery	PGPB, USPT, USOC, EPAB, JPAB, DWPI	AND	YES		01-15-2010
